- Turning Point Behavioral Health Care Center's innovative "The Living Room" project provides psychiatric respite care for patients dealing with mental health issues. The unique program, supported by Skokie Hospital, uses peer counselors (adults in recovery from their own mental health challenges) and reports a 98% success rate in keeping in-crisis patients out of hospital emergency rooms.
- In 2023, Endeavor Health's Medication Assistance Program (MAP), which offers aid to patients who need help paying for prescription drugs, assisted 1,751 patients, filling 21,097 prescriptions valued at a cost of \$917,497.
- Endeavor Health, in collaboration with Josselyn, has provided Mental Health First Aid (MHFA) to more than 600 community responders, as well as trainings focused on underrepresented/underresourced populations and community organizations. 16 instructors have been trained and provided with wraparound support to enable them to train other community responders.

Community Investment Fund

The Community Investment Fund is a dedicated resource aimed at fostering health and wellness, addressing social determinants of health and creating equitable access to quality healthcare within our community. By strategically allocating these funds, we support local initiatives, partnerships and non-profit organizations that respond to priority community health needs. In addition to financial support, we serve as a convener for community organizations, fostering a collaborative environment where the collective impact of our partnerships is greater than the sum of their parts.
