**NOTES:**

SITE 1- Evanston

SITE 2- Glenbrook

SITE 3- University of Chicago

**Inpatient = Inpatient (Inpt) Hematology (Heme) or Inpatient Oncology (Onc)** – Inpatient time will include the combined time on inpatient service and inpatient consults. Hematology is separate from oncology and inpatient months will be split, with ~ 2:1 hematology: oncology reflecting service size

**Palliative Care/ Blood Bank-** 2 week on combined inpatient and outpatient palliative care. A separate 2 weeks in blood bank/ apheresis

**Nsg + Pharmacy / Surg Path** – This rotation will be 2 weeks spent with outpatient treatment nurses and outpatient oncology pharmacists. And then a separate 2 weeks of Surgical Pathology

**Medical Genetics/ Molecular Pathology-** This rotation will be 2 weeks of outpatient Medical Genetics and then 2 weeks of Molecular Pathology

**Ambulatory (Amb)-** Will consist of 4 half day clinics, (separate from 2 ongoing continuity clinics (see below)) to cover specialties not as well covered in continuity clinics as well as to meet individual fellow's goals).

**Rad Onc/ Neuro Onc-** Will refer to 2 weeks with Radiation Oncology and then 2 separate weeks of Neuro Oncology

**Allo Transplant** – Will be one month at Site 3 Allo Transplant plus cell therapy. Additional elective months will be available \*\* Note during inpatient oncology and hematology months at Site 1, fellows will also be exposed to and caring for autologous transplant and cell therapy patients

**Elective** – Includes those listed below, second rotations through scheduled specialties, or "other". Most all will be at site 1 or 2. Most will be outpatient thus indicated as 100% outpatient but an inpatient elective may be chosen in which case outpatient % will be less than 100%

**Vacation** – Includes 4 Weeks of vacation

**Gyn Onc** – Outpatient and Inpatient Gynecological Oncology (plus O.R. as desired)

**Research** – Defined broadly and may include lab, translational, retrospective or clinical research; Quality Improvement; Leadership or other scholarly pursuits

**Research/Elective**- Fellow may choose additional research months or additional elective (and thus research is noted as 80% but may be 0-80%)

**Palliative Care/ Coag** – 2 weeks with inpatient and outpatient palliative care/and 2 weeks of coag lab and heme lab

**Continuity Clinic** will include ½ day per week for 36 months in benign + malignant hematology; Plus 36 continuity oncology months to include 6 month blocks of: 1.) Breast, 2.) Thoracic, 3.) Genitourinary; 4.) Gastrointestinal; 5.) Head and Neck/ Cutaneous/Sarcoma; plus 6.) "other" or repeat

#### **SAMPLE AVAILABLE ELECTIVES:**

1. Cardio-oncology
2. Survivorship
3. Integrative Medicine
4. Diagnostic Radiology
5. Psychosocial Oncology
6. Oncology Rehab Services
7. Additional Laboratory Time
8. Additional Pathology Specialties
9. Others as arranged
10. Repeat of rotations specified in blocks above
11. Away Rotation
12. Additional Research
